You’ve Been Accepted into 4+1! Now What?
The Polytechnic School

Congratulations on your acceptance into a 4+1 program in the Ira A. Fulton Schools of Engineering! We are excited to have you in our program and we look forward to working with you as you complete both your bachelor’s and master’s degrees. To make the process a bit easier, we want to provide you with some helpful and important information:

☐ **Override requests:** After you have officially been admitted into your corresponding graduate program, please be sure to submit an override request for any approved 500-level course you plan on taking in the upcoming semester on our online override request tool (https://fultonapps.asu.edu/override/).

☐ **Changes to your 4+1 shared classes:** If you need to make any changes to the list of classes you plan on sharing through 4+1, please contact the 4+1 Advisor, Erin Eldridge, at erin.eldridge@asu.edu. Please also remember that any new courses you add must come from your program’s approved shared course list, which is listed on your 4+1 Agreement that was sent to you via email when your Agreement was approved. If you do not have that information and need it for reference, please email Erin.

☐ **Questions about your bachelor’s degree requirements:** Make sure you continue to stay in touch with your undergraduate advisor as you complete your bachelor’s degree. They are still your main point of contact for any questions regarding your major map, DARS, or bachelor’s degree requirements. If you aren’t sure who your undergraduate advisor is, you may find their contact information on your MyASU page if you click on ‘Advising’ under the ‘My Programs and eAdvisor’ section.

☐ **Changes to your undergraduate graduation date:** Please let Erin Eldridge know of any changes to your undergraduate graduation date as soon as possible.

☐ **Applying for graduation:** Please remember that you will still apply for undergraduate graduation when the time comes, and you will still be able to walk in the graduation ceremony if you choose to do so. You may access the graduation portal through your MyASU page if you click on ‘Graduation’ under the ‘My Programs and eAdvisor’ section.

☐ **Graduate degree requirements:** Make sure that you familiarize yourself with your corresponding graduate program’s degree requirements. You may view that information by clicking on your graduate degree at http://poly.engineering.asu.edu/degrees/ and then clicking on ‘Degree Requirements and Coursework’ in the side column. For the MS Tech Technology (Graphic Information Technology) and MS Applied Psychology programs, please reference your program’s handbook, which is located in the same area.

☐ **Preparing for the graduate program:** When it comes time for you to register for your first semester as an official graduate student after you complete your bachelor’s degree, you will want to meet with the graduate advisor to ensure that you enroll in the correct classes. You may call our front desk at 480-727-1874 to set up an appointment with the graduate advisor.

☐ **Withdrawing from 4+1:** If you decide that you would no longer like to continue with the 4+1 program, please email Erin Eldridge at erin.eldridge@asu.edu and she will assist you with the withdrawal process.

☐ **Stay in touch with your 4+1 Advisor:** We are here to make your transition over to your corresponding graduate program a smooth one. Let us know how we can help with your 4+1 experience!
