Polytechnic School Advising Office

How to Search for General Studies Courses

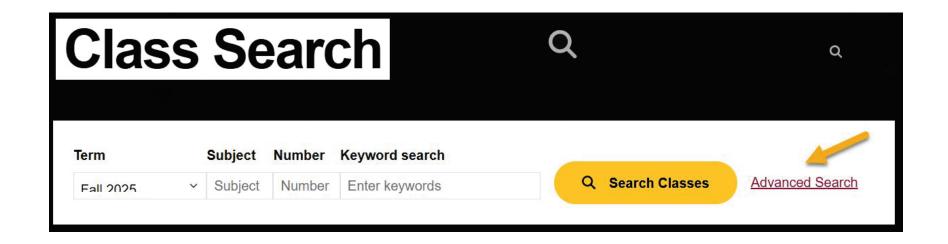

Step 1: Log in to MyASU and select the semester in which you plan to enroll. Then select the Class Search link.

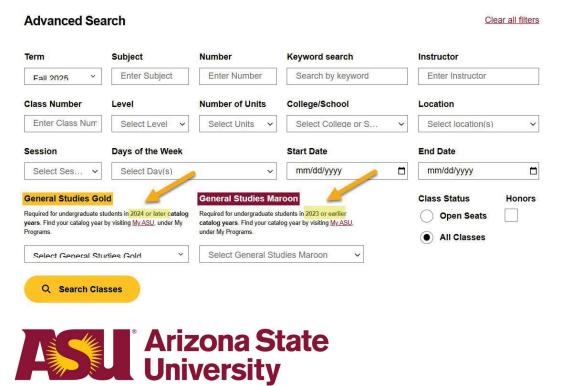

Step 2: Select "Advanced Search" to the right of the Search Classes button.

Step 3a: Leave "Subject" and "Number" fields blank. You may select search parameters such as location (ASU Online students will see online classes only), session, or course level to limit your results. Leave these options blank to see all results.

Step 3b: Verify which General Studies curriculum you are following. This is determined by your catalog year and can be found in the "My Programs" box on your My ASU homepage if you are unsure.

2024 or later = Gold 2023 or earlier = Maroon **Step 3c:** Click on the appropriate drop-down menu for your General Studies catalog year and select the category to search for.

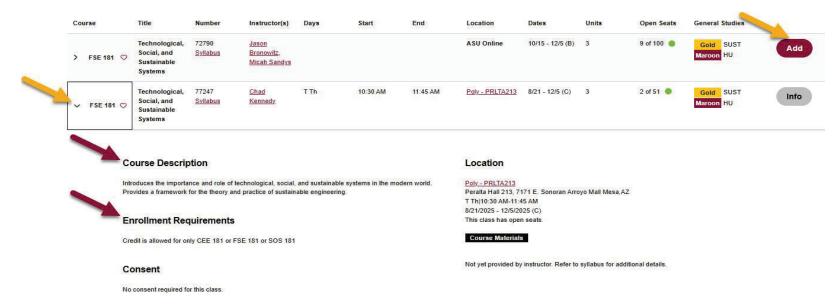

Select General Studies Gold
HUAD: Humanities, Arts and Design
SOBE: Social and Behavioral Sciences
SCIT: Scientific Thinking in Natural Sciences
QTRS: Quantitative Reasoning
MATH: Mathematics
AMIT: American Institutions
CIVI: Governance and Civic Engagement
GCSI: Global Communities, Societies and Individuals
SUST: Sustainability

You may select multiple options in the Maroon categories if your Academic Advisor suggests that you "double-dip".

Step 4: You may click the arrow to the left of the course prefix and number to expand the course section to read a brief course description and view pre-requisite requirements. The "General Studies" column verifies which general studies categories will be satisfied for either Gold or Maroon requirements.

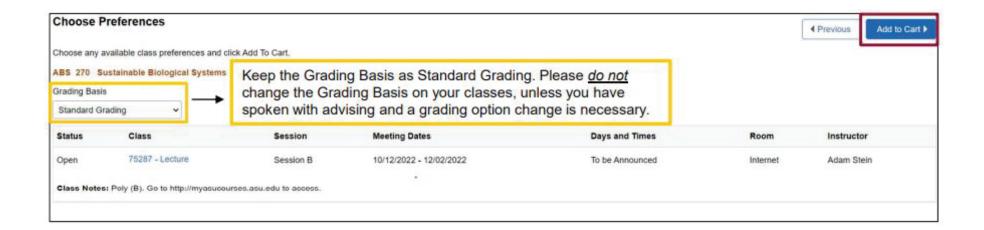

Review the course dates to select the session you want (if not previously limited). To add a class, click "Add." This will take you to the Registration page. The "Info" bubble indicates that section has already begun and is unavailable to add to your schedule.

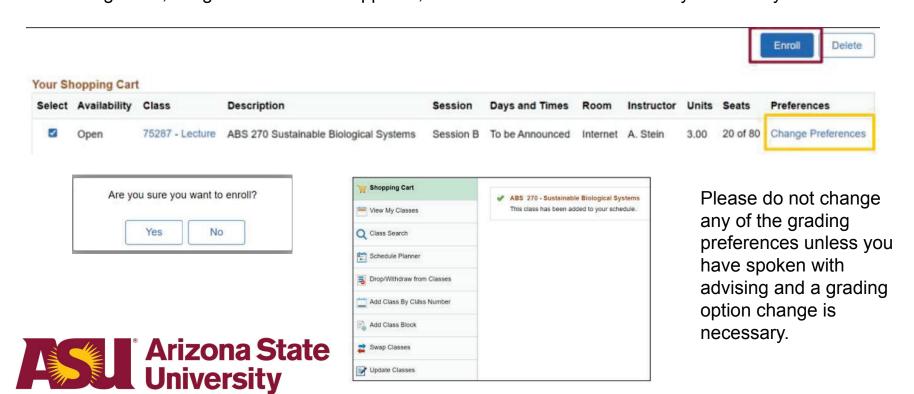

Step 5: After reviewing and selecting any preference options, click "Add to Cart" to finish enrolling.

See note below regarding the Grading Basis.

Step 6: Double check again that you've added the correct class and seats are still available. Click "Enroll" to finish enrolling. A pop-up will appear asking if you are sure. After clicking "Yes", if a green checkmark appears, the class has been successfully added to your schedule!

Final Steps: Return to your MyASU page. In the "My Classes" box, select the semester you wish to review.

You can now view your schedule and required books, and complete other tasks as needed.
